A Legacy of Intentional Impact

Founded by a collective of institutional investors and foundation investors, the Crescent Foundation was born from a singular observation: philanthropy is often hampered by bureaucratic inefficiency. We sought to build an organization that mirrors the precision of a large office with the soul of a grassroots movement.

Our methodology focuses on "Catalytic Funding"—providing the essential capital needed to scale proven local solutions. By maintaining low overhead and high rigorous auditing, we ensure that every dollar contributed moves the needle on global education, clean water access, and economic empowerment.

"Transparency is not a habit for us; it is our foundation. We believe anyone deserves to see the direct impact of their generosity in real-time data."

Privacy Policy & Institutional Integrity

At Crescent Foundation, we recognize that trust is the cornerstone of our mission. This document outlines our rigorous standards for data protection and how we handle the information entrusted to us by our donors and partners.

1. Introduction

The Crescent Foundation ("we," "us," or "our") is committed to protecting your privacy. This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you visit our website, participate in our campaigns, or donate to our causes.

As a premier 501(c)(3) nonprofit, we adhere to the highest ethical standards in fundraising and data management. We do not sell, trade, or rent donor lists to third-party commercial entities.

2. Information We Collect

We collect information that you voluntarily provide to us when you express an interest in obtaining information about us or our products and services, when you participate in activities on our platform, or otherwise when you contact us.

- **Personal Identifiers:** Name, email address, mailing address, and phone number.
- **Financial Data:** Secure payment processing tokens (we do not store full credit card numbers).
- **Impact Preferences:** Information regarding the specific campaigns or mission areas you choose to support.
- **Technical Data:** IP addresses, browser types, and device information collected via automated tracking.

Our Commitment to Transparency

"We believe that every donor has the right to know exactly how their data is used to fuel impact. Our systems are designed to minimize data exposure while maximizing the efficiency of your contribution."

3. How We Use Your Information

Your information allows us to provide you with a smooth, efficient, and customized experience. Specifically, we use your data to:

- Process your donations and provide tax-deductible receipts.
- Send periodic updates on the impact of your specific contributions.
- Analyze site usage to improve our digital interface and accessibility.
- Communicate regarding upcoming galas, campaigns, or strategic shifts in our mission.

4. Institutional Transparency

In alignment with our values of prestige and accountability, we maintain public records of our financial health. While individual donor names may be listed in our Annual Impact Report (unless anonymity is requested), specific contribution amounts are kept strictly confidential.

5. Data Security Measures

We use administrative, technical, and physical security measures to help protect your personal information. We employ industry-standard encryption (AES-256) for all data at rest and TLS for data in transit.

While we have taken reasonable steps to secure the personal information you provide to us, please be aware that despite our efforts, no security measures are perfect or impenetrable, and no method of data transmission can be guaranteed against any type of misuse.

6. Your Legal Rights

Depending on your jurisdiction (e.g., GDPR in Europe or CCPA in California), you may have the following rights regarding your data:

- **Access:** The right to request copies of your personal data.
- **Rectification:** The right to request that we correct any information you believe is inaccurate.
- **Erase:** The right to request that we erase your personal data under certain conditions.
- **Data Portability:** The right to request that we transfer the data that we have collected to another organization.

7. Cookie Policy

We use cookies and similar tracking technologies to track the activity on our service and hold certain information. Cookies are files with a small amount of data which may include an anonymous unique identifier. You can instruct your browser to refuse all cookies or to indicate when a cookie is being sent.
